Department of Pediatric Anesthesia,  
Children's Hospital of Eastern Ontario (CHEO),  
401 Smyth Rd, Ottawa, ON,  
K1H 8L1

**Wednesday, August 21, 2019**

Dear Dr. Bould,

The University of Alberta Division of Otolaryngology and Office of Global Surgery are seeking the assistance of an Anesthesiologist to join in a surgical partnership with Moi Teaching and Referral Hospital (MTRH) in Eldoret, Kenya.

We are planning a ten-day workshop in Eldoret, Kenya from October 20<sup>th</sup> to 31<sup>st</sup>, 2019. The Anesthesiologist will work alongside University of Alberta Otolaryngologists in administering a one-day advanced airway course for Anesthetists, General Surgeons, and Otolaryngologists at the MTRH. We will also be performing a limited number of surgical cases which will involve the Anesthesiologist working alongside local Anesthesiologists in administering anesthetic for Otolaryngology cases. The Anesthetist is not required to be present for the duration of the workshop, but a minimum commitment of three days is required. Logistics and accommodations will be planned by the Office of Global Surgery. However, all workshop planners and instructors will be financially responsible for their own airfare and local accommodations, which we anticipate being approximately \$1500 to \$2000 Canadian Dollars per person.

Moi Teaching and Referral Hospital is a tertiary care public referral hospital in western Kenya, and one of only two in the entire country. It services a population of up to 40 million and hosts several surgical subspecialties including general surgery, otolaryngology, orthopedic surgery, obstetrics, urology, and transplant surgery.

If you know of anyone interested or would like to know more, please contact Dr. Andre Isaac or Mr. Kaiyang Fan from the Office of Global Surgery.

Thank you for your time and consideration.

Yours in Writing,

**André Isaac, MD, MSc, FRCSC**

Assistant Professor,  
Pediatric Otolaryngologist-Head and Neck Surgeon  
Department of Surgery,
